

Rail and Luas Services

The rail and Luas networks provide an excellent means to access Grangegorman from various parts of Dublin and beyond. The Luas Red Line at Smithfield is located approximately 10 minutes walking distance from the campus. This line provides access to Heuston and Connolly Stations where a connection can be made to commuter and intercity rail services. It should be noted that a direct Luas connection to Grangegorman at Broadstone will be made in 2017 following full build out of the campus.

For up to date information on Luas and Commuter Rail services, check out the national journey planner at transportforireland.ie or download the app.
