## INTRODUCTION

Dublin Institute of Technology (DIT) is required under the provisions of the *Safety, Health and Welfare at Work Act 2005*, to have and bring to the attention of all employees, a statement of its policy, organisation and arrangements with respect to health, safety and welfare at work. The Act also embraces all of the activities at DIT and staff, students, visitors, contractors/service providers.

The fundamental aim of the *Safety, Health and Welfare at Work Act* is the prevention of accidents and illnesses at the place of work. Safety consultation procedures and the preparation of a Safety Statement and written risk assessment are the key provisions of the Act.

This Safety Statement has been prepared in compliance with the Act and provides details of the specific hazards relevant to Campus Life and the controls that have been implemented to adequately safeguard the activities. This Safety Statement applies to the Office of Campus Life and includes the Financial Aid & Accommodation Service. Separate Safety Statements are prepared for the other support services under the umbrella of Campus Life.

This Safety Statement should be read in conjunction with the DIT Parent Safety Statement which is available on the [health and safety website](#).

This document applies to all staff, students, visitors, contractors/service providers and campus users. It will be updated as necessary in the light of new legislation, staff feedback, changes and practical experience. In addition it will be reviewed annually.

## SAFETY POLICY & OBJECTIVE FOR CAMPUS LIFE

The Campus Life Office will ensure that:

- Work activities are managed and conducted in a manner that ensures the safety, health and welfare of our employees, students, visitors and contractors/service providers
- Our Safety Statement is maintained and updated and written risk assessments are carried out and reviewed as required and brought to the attention of all employees at least annually
- Identified protective and preventative measures are implemented and maintained
- Improper conduct likely to put an employee, student, visitor or contractor/service provider's safety and health at risk is prevented
- A safe place of work is provided that is adequately designed and maintained
- A safe means of access and egress is provided
- Safe plant and equipment are provided
- Safe systems of work are provided
- Risks to health from any article or substance are prevented
- Appropriate information, instruction, training and supervision are provided
- Where hazards cannot be eliminated suitable protective clothing and equipment are provided
- Emergency plans are prepared and revised
- Welfare facilities are provided and adequately maintained
- Competent personnel who can advise and assist in securing the safety, health and welfare of employees are employed when required

Signed:

Brian Gormley, Head of Campus Life

Date:

23/2/14

## **SCOPE OF SAFETY STATEMENT**

This Safety Statement applies to the Office of Campus Life and includes the Financial Aid & Accommodation Service. Separate Safety Statements are prepared for the other support services under the umbrella of Campus Life.

### **The scope of our operations includes:**

Primarily office administration - answering phone, mail and e-mail queries. There is a financial management role, but no cash is handled. There are a limited number of face-to-face interactions with students. On rare occasions staff may visit potential student accommodation facilities.

## **HISTORY OF LOCATION**

### **Our staff offices and operations are located in the following areas:**

The majority of the staff are based in 143-149 Rathmines Road since 2007. The Manager of Campus Life is based in DIT Grangegorman with the Campus Planning Team.

## **SAFETY RESPONSIBILITIES**

In accordance with the DIT Parent Safety Statement, the Head of Campus Life, Brian Gormley, as part of his management function, is responsible for ensuring, so far as is reasonably practicable, the health and safety of persons working, studying or visiting their area of responsibility. In particular he is responsible for the following:

1. To ensure a Safety Statement relevant to operations is prepared which complies with Section 20 of the Safety, Health and Welfare at Work Act.
2. To ensure that the Safety Statement is reviewed at least annually and that the DIT Senior Leadership Team (SLT) Health and Safety Sub-committee is notified that the review has been completed and is provided with any updated document which may result from such a review.
3. To ensure that all hazards are identified and risks controlled.
4. To ensure that regular safety inspections/audits are carried out to monitor compliance with the Safety Statement and legal requirements and to ensure appropriate follow-up action is taken.
5. To investigate all accidents to staff/students/visitors in their area of responsibility and to complete the Incident Report Form as appropriate.
6. To ensure that local emergency plans and first aid procedures are implemented and that sufficient fire Marshals/first aid personnel are available.
7. To ensure that staff are appropriately trained to carry out their duties safely and to ensure the attendance of staff at designated training courses as appropriate.

### **All Institute Staff**

All employees/staff have a duty to take responsibility for their own safety, health & welfare and for that of visitors and any other person who may be affected by their acts or omissions while at work.

### **Statutory Requirement**

*Chapter 2, Sections 13 & 14 of the Safety Health and Welfare at Work Act 2005 places a number of obligations on employees whilst at work as outlined in this section:*

**13.—(1)** An employee shall, while at work—

- (a) comply with the relevant statutory provisions, as appropriate, and take reasonable care to protect his or her safety, health and welfare and the safety, health and welfare of any other person who may be affected by the employee's acts or omissions at work,
- (b) ensure that he or she is not under the influence of an intoxicant to the extent that he or she is in such a state as to endanger his or her own safety, health or welfare at work or that of any other person,
- (c) if reasonably required by his or her employer, submit to any appropriate, reasonable and proportionate tests for intoxicants by, or under the supervision of, a registered medical practitioner who is a competent person, as may be prescribed,
- (d) co-operate with his or her employer or any other person so far as is necessary to enable his or her employer or the other person to comply with the relevant statutory provisions, as appropriate,
- (e) not engage in improper conduct or other behaviour that is likely to endanger his or her own safety, health and welfare at work or that of any other person,
- (f) attend such training and, as appropriate, undergo such assessment as may reasonably be required by his or her employer or as may be prescribed relating to safety, health and welfare at work or relating to the work carried out by the employee,
- (g) having regard to his or her training and the instructions given by his or her employer, make correct use of any article or substance provided for use by the employee at work or for the protection of his or her safety, health and welfare at work, including protective clothing or equipment,
- (h) report to his or her employer or to any other appropriate person, as soon as practicable—
  - (i) any work being carried on, or likely to be carried on, in a manner which may endanger the safety, health or welfare at work of the employee or that of any other person,
  - (ii) any defect in the place of work, the systems of work, any article or substance which might endanger the safety, health or welfare at work of the employee or that of any other person, or
  - (iii) any contravention of the relevant statutory provisions which may endanger the safety, health and welfare at work of the employee or that of any other person, of which he or she is aware.

(2) An employee shall not, on entering into a contract of employment, misrepresent himself or herself to an employer with regard to the level of training as may be prescribed under *subsection (1)(f)*.

**14.—**A person shall not intentionally, recklessly or without reasonable cause—

- (a) interfere with, misuse or damage anything provided under the relevant statutory provisions or otherwise for securing the safety, health and welfare of persons at work, or
- (b) place at risk the safety, health or welfare of persons in connection with work activities

*In addition, staff have the following responsibilities:*

- To participate in and put into practice all training provided by DIT, to ensure compliance with safety, health & welfare legislation
- To co-operate with those responsible for health and safety
- To familiarise themselves with the contents of the Health and Safety Statement, safety policies and procedures and Codes of Practice
- To assist in the preparation and updating of the Campus Life Safety Statement
- To assist and co-operate with periodic safety inspections/audits
- To assist in the completion of standard hazard identification control sheets and co-operate with the reporting and investigation of incidents
- To ensure that equipment is operated in a safe manner and good housekeeping standards are maintained at all times
- To promote safe work practices

- To ensure that all safety rules are communicated to students, contractors and visitors, other campus users
- To use equipment only if authorised and trained
- To ensure that any safety measures associated with new equipment/machinery is brought to the attention of the Head of Campus Life, Brian Gormley, implemented, documented in the Health and Safety Statement and communicated effectively
- To report to the Head of Campus Life, Brian Gormley, any person abusing facilities or equipment
- To select and appoint a Safety Representative
- To notify the Health & Safety Officer of any perceived shortcomings in the safety arrangements

### **Undergraduate/Postgraduate/Apprentice Students**

Students have a legal responsibility not to endanger themselves or others by their acts or omissions. Thus they must:

- Take reasonable care of their own safety and the safety of others
- Co-operate fully with all safety rules and regulations issued by DIT e.g. smoking etc.
- Co-operate with those with responsibility for health and safety
- Not interfere or misuse any specified items of safety equipment or any safety device
- Ensure that equipment is operated in a safe manner and good housekeeping standards are maintained
- Use equipment only if authorised and properly trained
- Report any incident, dangerous occurrence, defective equipment or potential safety hazard to the Head of Campus Life, Brian Gormley
- To participate in any safety training programmes facilitated by the Health & Safety Office

### **Contractors/Service Providers**

*The following responsibilities are allocated to contractors/service providers:*

- All contractors/service providers will be expected to comply with the Institute's Policy for safety health and welfare and must ensure that their own Safety Statement is made available whilst work is being carried out. It is the Institutes policy that all contractor/service providers have a Safety Statement in accordance with the *Safety, Health and Welfare at Work Act 2005*
- All work must be carried out in accordance with relevant statutory provisions and taking into account the safety of others on the site. The contractor/service provider must have adequate insurance cover
- Contractors/service providers must not commence with any work on the premises or project site until the Contractor Safety Guidelines and other relevant safety procedures are read, understood and accepted (available from Buildings Office). They must complete the e-learning programme for contractors/service providers
- Contractors/service providers will take reasonable care of themselves and others who may be affected by their acts or omissions and will co-operate as appropriate with DIT employees as necessary
- Contractors/service providers must supply at tender stage a Safety Statement, relevant method statements, copies of their public and employers liability insurance and complete the Contractors Compliance Form CCF1 before a contract is awarded

- They will liaise with the local Building Maintenance Manager and obtain work permits as required
- Scaffolding and other access equipment used by contractor's/service provider's employees must be erected and maintained in accordance with current legislation and Codes of Practice
- All plant and equipment brought onto the site by contractors/service providers must be safe and in good working order, fitted with any necessary guards and safety devices and have all necessary certificates available for inspection
- All transformers, generators, extension leads, plugs and sockets must be suitable for industrial use and in good condition. No power tools or electrical equipment of greater than 110 volts should be used outdoors. If it is necessary to use equipment operating from a 220-volt supply, a residual current device with a rated tripping current of 30mA and operation of 30m sec must be used
- Any injury sustained by a contractor's/service provider's employee must be reported immediately to the local Building Maintenance Manager
- Contractors/service providers must comply with any safety instructions given by DIT
- DIT may carry out safety inspections. Contractors/service providers informed of any hazards or defects identified during these inspections will be expected to take immediate action
- DIT must be notified of any material or substance brought onto the site which has health, fire or explosive risks. Such materials must be stored and used in accordance with current recommendations
- Contractors/service providers will be accountable for the maintenance of good housekeeping practices at all times within their respective areas of work
- Contractors/service providers are not allowed to use equipment owned by the Institute unless written permission is received from the Head of Campus Life, Brian Gormley, and a competent person passes it as being safe

#### **Visitors (a person other than an employee or contractor/service provider)**

- Visitors may not be aware of the potential hazards associated with DIT and also may lack familiarity with the Institute's premises/facilities and are therefore a potential risk to themselves and others. All visitors must identify themselves to the relevant DIT personnel and follow all DIT's safety procedures and policies
- Visitors must not enter any area where they do not have the authority to do so. Hazardous areas will be restricted
- They must not interfere with any of the Institutes property, equipment, materials or substances unless they have permission to do so from the person in charge
- They must not remain on the premises any longer than necessary and should return PPE on leaving
- In the event of an evacuation, they will be led to the Assembly Point by their DIT host
- A safety booklet and wallet card is available at Front desk/Reception area and on request
- The DIT Parent Safety Statement is available on the safety website [www.dit.ie/safework](http://www.dit.ie/safework)
- DIT has a [Child Protection Policy](#) available on the DIT website

#### **DISCIPLINARY ACTION**

Any member of staff/student who contravenes or fails to manage to work in accordance with current safety health and welfare legislation, the DIT Parent Safety Statement and codes of practice may be subject to the Institute's disciplinary procedures. The Buildings Officer will address any contraventions by contractors/service providers.

## HEALTH AND SAFETY CONSULTATION

Employers are obliged under *The Safety, Health and Welfare at Work Act 2005*, to consult with and take account of any representations made by employees regarding health, safety and welfare. Campus Life ensures that health and safety is an agenda item at all meetings and ensures that working groups are appointed to deal with certain health and safety items if required.

A nominee from Campus Life, Sinéad McNulty, sits on the Health and Safety Team for the Directorate of Student Services. This team meets periodically throughout the year every two months.

Consultation takes place when there is a change, update or modification to a particular work process, when new machines or processes are introduced or when new substances or materials are introduced.

The Student Services Health and Safety Team has selected and appointed Safety Representatives. Details of current Safety Representatives may be found on the health and safety website ([www.dit.ie/safework](http://www.dit.ie/safework))

## PROVISION OF INFORMATION

The Campus Life Management Team is the primary route for communicating health and safety issues and updates to the Campus Life team. The team also get regular e-mail updates. Sinead McNulty is the Campus Life representative on the Student Services Health and Safety team.

### **Staff, students and others are made aware of safety matters by the following means:**

- Agenda item at Team/School meeting
- Desktop Emergency Response Flip charts
- Health & Safety notice boards
- Health & Safety Newsletters
- Toolbox talks
- Health & Safety Induction
- Health & Safety Training courses
- Signage:
  - Safety notice points
  - Emergency first aid procedure signs
  - Emergency floor plans
  - Assembly point maps
  - Fire actions notices
- Emergency Response posters
- Safety booklets
- Safety wallet cards
- Website [www.dit.ie/safework](http://www.dit.ie/safework)
- Posters
- Inductions are prepared and delivered by Occupational Health Officers where requested

## HEALTH AND SAFETY RESOURCES

Campus Life codes all budgetary spend on activities/spend pertaining to safety, health and welfare. Considerable resources are expended by Campus Life in securing the health, safety and welfare of employees in terms of personnel, time, materials, equipment and the purchase of goods and services.

Where additional equipment, training etc. is required whether as a result of ongoing risk assessment or legislative change, resources will be allocated on a prioritised basis to meet the identified requirements.

The health and safety website hosts a reference library of videos, texts, literature and other publications on health and safety matters.

## **SAFE SYSTEMS OF WORK**

It is the policy of DIT to ensure that employees are not asked to perform tasks outside their competence and capacity. Safe systems of work have been designed with this objective in mind. Management shall keep a watching brief on safety matters and where necessary adjust or alter systems of work to make them as safe as is reasonably practicable.

## **PROCUREMENT CONTROL**

The purchasing of equipment, plant and substances is subject to the provisions of the *Safety, Health and Welfare at Work Act 2005* and associated regulations, thus all equipment, plant or substances will undergo risk assessment prior to acceptance into the Institute. Campus Life follows all the guidelines as per the Parent Safety Statement and ensures that a risk assessment is carried out before any equipment/machinery or contractor/service provider is engaged by the office.

## **INSPECTION PROCEDURES**

All locations of work will be periodically inspected by a representative from the Health & Safety Office accompanied by local management and the Safety Representative. The Head of Campus Life, Brian Gormley, will ensure non-conformances identified are rectified and a log maintained.

Where in the opinion of the Health & Safety Officer or other competent officer, there is a risk of serious injury and immediate risk to individuals, he/she will have the authority to advise that the activity is stopped until adequate steps have been taken to eliminate risk or if possible reduced to an acceptable level. Where the risk cannot be reduced to an acceptable level and finance is not available, the Head of Campus Life, Brian Gormley, shall ensure the activity is ceased.

In accordance with statutory requirements, certain examinations, testing and inspections are carried out on specific items. A list of those items, the frequency of inspection and the testing body is presented below. This is not applicable to the Campus Life Office.

| <b>Item</b> | <b>Location</b> | <b>Test Frequency</b> | <b>Test Company Details</b> |
|-------------|-----------------|-----------------------|-----------------------------|
| N/A         | N/A             | N/A                   | N/A                         |

## TRAINING

Health and Safety training is a legal requirement specified by the Safety, Health and Welfare at Work Act, 2005. It is also Institute Policy that all employees attend such health and safety training and assessment. Please see Health and [Safety Training Policy for Staff](#).

Each employee will be made aware of emergency action plans and arrangements pertinent to their workplace as per section 11 of the 2005 Act at induction by completing the online Emergency Response Training (ERT) programme.

In addition to our statutory duty to employees, DIT seeks to provide such training as is necessary to enable the students to undertake their studies in a manner which, in so far as it is reasonably practicable, is safe and does not give rise to risks to health or expose the individual student or other persons to unacceptable levels of risk. The provision and extent of any necessary training is dependent upon the nature of the academic discipline being pursued, the experience and disposition of the students involved, their familiarity with any equipment/substances to be utilised, the environment/conditions where the activities may be discharged, and the extent to which supervision is necessary and available. Risk assessments will highlight where additional student training is required.

Training required for Campus Life includes:

### **Mandatory Training:**

- Emergency Response Training (ERT)
- Manual Handling
- Legal Update for Managers (for grades V and above)
- Dignity at Work

### **Specialist Training:**

- Evacuation Marshal
- First Aid

## EMERGENCY PLANNING AND RESPONSE

### **SERIOUS INCIDENT/EMERGENCY**

- Dial 112/999 (You may need to dial “0” for an outside line)
- Contact DIT Health & Safety Officer - 086 3891080

### **REQUIRES FIRST-AID**

- Seek local first-aider – See Contacts Page
- Injured unwell staff/students:  
Occupational Health Officer:  
Rosie Cannon 087 9809194
- Injured/Unwell Students:  
Student Health Centres  
Northside 01 4023614  
Southside 01 4023051

**If serious/after 5pm/in doubt, go directly to local A & E/local GP**

### **REQUIRES FURTHER ATTENTION**

- Staff members should attend their local GP  
Students should attend the Student Health Centre
- Structural safety matters - should be referred to the local Buildings Maintenance Manager
- Operational safety matters – should be documented on a Hazard Report Form and sent to the Health & Safety Office ([www.dit.ie/safework](http://www.dit.ie/safework))

## **FIRE & EVACUATION** **CAMPUS LIFE**

### **INSTRUCTIONS ON DISCOVERING A FIRE**

**(all staff, students, visitors, contractors/service providers etc.)**

- Activate the nearest fire alarm point
- Leave the building using the nearest exit route
- Disperse from the building and move away to place of safety
- Do not use the lift
- Do not re-enter the building until the “all clear” has been given

### **INSTRUCTIONS ON HEARING THE EVACUATION ALARM OR OTHER WARNING**

**(all staff, students, visitors, contractors/service providers, first-aiders etc.)**

**On hearing an alarm activation or other warning:**

- Instruct staff to leave all areas including offices, meeting rooms, sanitary facilities, common areas etc.
- All visitors should be escorted to safety by the person they are visiting
- Anyone in common areas or moving between areas, should immediately join the lines of people exiting
- Shut down equipment if safe to do so and time permits
- Close windows and doors to confine smoke/fire
- “Sweep search” the area (offices, meeting rooms, sanitary facilities, storage areas), and evacuate the building immediately by the nearest available exit. Marshals should then leave immediately via the nearest escape route
- If required, assist any individuals to evacuate the area\*
- Form a single file on both sides of the corridor or stairway, leaving the centre passageway clear
- Do not delay or stop to collect personal belongings
- Do not use the lift
- If heavy smoke present, try to find another exit or crouch low to the floor
- All doors should be closed (not locked) by the last person in the line

- Report to the designated Assembly Point(s) for your building - **Rathmines Square**
- All evacuation marshals/sweepers, Building Maintenance personnel, Head of Campus Life, first-aiders should assemble at the assembly point on Rathmines Square to check in, reporting to the Incident Controller details of any casualties or people needing assistance with evacuation. This information is then given by the Incident Controller to the Emergency Services.
- Do not return to the building until instructed to do so by the Incident Controller

\* Separate personal emergency egress plans (PEEP) have been prepared for people with disabilities

**YOU SHOULD FAMILIARISE YOURSELF WITH THE LOCATIONS OF THE FOLLOWING:**

- Escape routes
- Fire alarm call points
- Fire extinguishers and blankets
- Fire assembly points

The Assembly points for DIT 143 – 149 Rathmines House are:

**1. Rathmines Square (front and rear)**

**Rathmines Square:  
Front and Rear**

Campus Life will ensure that sufficient marshals are appointed on an ongoing basis to provide an effective service. All staff of the office of Campus Life will act as evacuation marshals in accordance with local evacuation procedures in their respective areas.

Your Incident Controller is: **Porter on Duty**

General Rule of Thumb – all staff should act as “sweepers” in the event of an emergency, checking offices, meeting rooms, sanitary facilities and storage areas as they exit to ensure that as they exit everywhere has been cleared.

## **YOU SHOULD NOT PUT YOURSELF IN DANGER AT ANY TIME**

### **FIRST AID**

- An emergency first aid kit and automatic external defibrillator (AED) is available at the front desk/reception area.
- A list of Institute Staff who have completed training in first aid/AED is available on the [health and safety website](#)

List members of staff trained in this area:

- Pamela Butler, DIT Admissions, 143 Rathmines Road
- John Darcy, DIT Campus Planning Team, DIT Grangegorman

First aid kits are located at the front desk of each building. Please report any used items to the designated person in charge who is responsible for monitoring the contents and ensuring their replacement.

### **Further Treatment / Incident Report Forms**

- Staff may refer students to the Student Health Centre in DIT at 01 402 3614 / 402 3051 or contact the Emergency Services on 112 / 0999 if an incident is urgent
- Incident Report forms are available from the Front desk. When completed and signed the top white copy should be sent the DIT Health & Safety Officer
- An Occupational Health Officer Rosie Cannon is available at 087 9809194 weekdays 9:00am – 5:00 pm to deal with the occupational health, safety and welfare needs of all staff and students and to provide a back up first aid service

### **INCIDENT REPORTING AND INVESTIGATION**

The Institute has a statutory duty to record all incidents and report certain types of incidents and dangerous occurrences to the Health and Safety Authority (HSA). Therefore all incidents resulting in personal injury, damage to property, dangerous occurrences or near miss e.g. must be reported immediately to your Manager/Supervisor.

The incident report form must be forwarded to the Health & Safety Officer within 24 hours of the incident occurring or as soon as possible. Incident report forms are available at the front desk/reception area.

### **HAZARD REPORTING**

DIT recognises the part that its staff/students/visitors and contractors/service providers have to play in the reporting of hazards in the workplace. There is a report form to formally identify and report hazards. If the hazard is a structural issue, it should be reported immediately to the local Building Maintenance Manager and if it is an operational safety issue, it should be reported to local management using the Institute’s Hazard Report Form available on the [health and safety website](#).

## **MANAGEMENT OF CONTRACTORS/SERVICE PROVIDERS**

All work undertaken by outside contractors/service providers on behalf of Campus Life must be carried out under a Buildings Office Permit to Work.

## **PERSONAL PROTECTIVE EQUIPMENT (PPE)**

It is the policy of DIT to eliminate all hazards where reasonably practicable. DIT will assess what PPE appropriate to the task/work environment is required only as a last resort when further risk reduction is not feasible. There is no requirement for use of PPE by staff of the Campus Life Office.

## **ERGONOMICS**

All new equipment and machines, tools, work methods, work procedures and work stations should be assessed for ergonomic hazards prior to being brought into use. The Health & Safety Officer should be informed of the risk assessment process and will advise of competent people to assist with the risk assessment.

Staff should consider ergonomic standards when designing new workstations and layout of new offices.

It is the responsibility of the Head of Campus Life, Brian Gormley, to ensure that all information on ergonomic controls is communicated to employees and students via circulars, team briefings or other means. He should also ensure that all problems identified are addressed and brought to the attention of the Health & Safety Officer.

## **WELFARE PROVISIONS**

In accordance with legislation, Dublin Institute of Technology is committed to providing welfare facilities which are available to all staff which include the following:

- ✓ Adequate and suitable sanitary and washing and drying facilities with hot and cold running water maintained in a clean and hygienic condition
- ✓ Adequate number of lavatories and washbasins with hot and cold running water
- ✓ An adequate supply of potable drinking water at suitable points conveniently accessible to all employees, tested by the Buildings Office
- ✓ Suitable facilities for sitting/other ergonomic support, in the case where work can be done in a seated position
- ✓ Suitable and adequate facilities for boiling water and taking meals or reasonable access to other suitable and adequate facilities. All main campuses have staff common rooms and/or canteen facilities
- ✓ Easily accessible rest rooms/areas with seats with backs
- ✓ Adequate provision for drying wet or damp work clothes
- ✓ Adequate ventilation, temperature and lighting
- ✓ Fire detection and fire fighting equipment
- ✓ Emergency routes and exits
- ✓ Pedestrian and traffic management systems
- ✓ Clean and well maintained interior walls, floors and traffic routes
- ✓ Rest facilities for pregnant ladies or breastfeeding mothers

- Everyone is obliged to care for these facilities and must not misuse them. All welfare provisions should be maintained in a clean safe condition
- Arrangements for regular cleaning of premises and removal of waste should be made by the local Building Maintenance Manager. Arrangements for cleaning and waste disposal is outlined in the risk assessments below
- Drinking water is available to all staff via water dispensers throughout DIT buildings

## **SENSITIVE WORK GROUPS**

### **Protection of Children and Young Persons**

In cases where children must be present on Institute premises and therefore affected by our acts/omissions, sufficient notification must be given to the Health & Safety Office by the DIT host representative, of the situation, so that an appropriate risk assessment may be carried out. When on DIT property, the parents/guardians/host representative charged with responsibility for bringing the child onsite, must be responsible for that child and ensure that at all times they are supervised and protected from activities, processes, equipment, machinery, agents etc.

This does not apply to the Campus Life Office or Financial Aid and Accommodation Office.

All staff are familiar with the [DIT Child Protection Policy](#).

### **Pregnant Post-Natal and Breastfeeding Employees/Students**

The *Safety, Health and Welfare at Work (General Application) Regulations 2007*, places a duty on employers to assess the risks to determine any possible effects on new/expectant mothers resulting from any activity at the place of work.

- Each risk assessment will identify hazards in the workplace that could pose a health and safety risk to new and expectant mothers
- Where the assessment reveals a risk, then preventive or protective measures will be taken.
- Pregnant employees/students should advise the Health & Safety Office of their condition as soon as they are aware they are pregnant so that a confidential pregnancy risk assessment may be carried out
- On returning to work/college any new mothers who are breastfeeding and require facilities should contact the Health & Safety Office

## **LONE AND OUT OF HOURS ACCESS**

No lone working/out of hours access takes place by staff of the Campus Life Office. From time to time staff members may work alone in offices during normal opening hours and the control measures in place for this are outlined in the risk assessment section below.

## **WORK PLACEMENT**

Work placement fact sheets are available for all host employers/organisations, DIT students and DIT mentors, and must be studied before arranging and undertaking any work placement.

## **TRIPS/TRAVEL**

All trips and travel proposals must have a risk assessment completed prior to the event.

## **STAFF/STUDENTS WITH DISABILITIES**

Specific risk assessments will be completed to ensure that the health and safety needs of staff and students with permanent/temporary disabilities are taken into account. Preventative and proactive measures will be put in place following the risk assessment if specific hazards are identified. Personal emergency egress plans (PEEPs) will also be prepared if required. The Disability Liaison Officer will provide specialist and competent advice and liaise with the Health & Safety Officer, Occupational Health Officers, College Manager and Building Maintenance Manager. The onus is on visitors with a disability to notify staff at the front desk, who will assist in evacuation if required.

## **HEALTH SURVEILLANCE**

Risk assessments will determine if health surveillance is required. Health Surveillance is made available to all staff appropriate to the health and safety risks present and facilitated by the Health & Safety Office. In certain circumstances, staff and students may be referred to our external Occupational Health Physician for a health assessment in relation to their work/studies to ensure that we can put in place any additional corrective action if required.

Eye tests are available for regular visual display unit users at the National Optometry Centre. Please familiarise yourself with the eye test policy which is available on the [health and safety website](#).

## **WORKPLACE DRUGS, INTOXICANTS AND ALCOHOL**

An employee/student must ensure that he or she is not under the influence of an intoxicant to the extent that he or she is in such a state as to endanger his or her own safety, health or welfare or that of any other person. Contraventions will be dealt with as per DIT disciplinary procedures.

## **DIGNITY AT WORK ANTI BULLYING & HARASSMENT POLICY AND PROCEDURES**

The Institute's Dignity at Work Anti Bullying & Harassment Policy and Procedures deals with complaints against members of staff in the workplace which also includes work associated events such as meetings, conferences and work related social events, whether on the premises or off site. Bullying or harassment of staff/students will not be tolerated. Please ensure that all staff are familiar with the relevant [policy/procedure](#).

## **STRESS**

The risk assessment will identify any areas where stress is a hazard and controls will be implemented to eliminate this hazard. The HR department should be consulted immediately if an issue regarding stress is highlighted. An Employee Assistance Programme (EAP) is available to all staff. Students should liaise with their tutors in relation to issues regarding stress. Tutors are appointed for groups of students. Students may also seek assistance from the Student Health Centre and Student Counselling Service.

## **AUDIT, REVIEW AND COMMUNICATION**

Campus Life ensures that periodic health and safety audits are completed and a review of all Safety Statements and documentation takes place. This will be approved by the DIT SLT Health and Safety Sub-Committee. All changes will be communicated to all staff, students, visitors and contractors/service providers. The most recent revision of all Safety Statements will be available on the DIT safety website and from the Head of Campus Life, Brian Gormley.

## **DOCUMENT CONTROL**

This document is a controlled document and as such any updates, review and distribution will be in accordance with DIT's standards for such documents. Only controlled copies will be updated when required. The Head of Campus Life, Brian Gormley, will issue new documents after appropriate consultation and agreement with relevant parties.

## **HAZARD IDENTIFICATION, RISK ASSESSMENT AND CONTROL MEASURES**

It is the policy of the Institute to identify hazards in the workplace, assess the risk to safety and health and control these risks as far as is reasonably practicable.

The Parent Safety Statement outlines the generic hazards, which have been identified and the control measures that are in place.

**It is incumbent on those responsible for managing their areas of work, at all levels, not merely to observe the arrangements described in the Parent Safety Statement, but to assess their applicability within their area of authority and where necessary to refine and extend them to deal with particular local situations. The management of the Dublin Institute of Technology is committed to ongoing identification of hazards, assessment of the appropriate risks and the introduction of controls to deal with them. Management at all levels have a responsibility to apply this principle within their area of authority.**

Staff are encouraged to become involved and participate in safety, health & welfare issues. In particular, they are encouraged to identify any potential hazards, which may exist, and to ensure that a risk assessment is carried out.

Ongoing hazard inspections will be carried out periodically to ensure that the information is updated, controls are adequate and where necessary the risks are reassessed.

A **“hazard”** is taken to mean “any substance, article, material or practice which has the potential to cause harm to the safety, health or welfare of staff, students, visitors, contractors/service providers in DIT”. Hazards may be classified as:

- Physical
- Chemical
- Biological
- Operational
- Human Factors

**“Risk”** is a measure of the probability of the event occurring and the severity and extent of the injury, ill health or damage it may cause if it did occur.

Risks may be classified as:

- High
- Medium
- Low

|        |   |
|--------|---|
| High   | Occurrence is probable, and could cause a fatality, serious injury or serious ill health to an individual or group of people. |
| Medium | Occurrence is possible and could cause injury or ill health to an individual or a small group of people.                      |
| Low    | Occurrence is possible but unlikely, only minor injury would be caused and would probably be limited to a single individual.  |

The classification of hazards should be used to develop the priority of control measures, remedial actions, and the allocation of resources. As a general rule, the control measures will seek to eliminate any risk classified as high and reduce the potential of risks classified as medium or low.

Risk control measures are a combination of:

|                            |  |
|----------------------------|--|
| <b>Elimination</b>         | Where the risk is removed  |
| <b>Substitution</b>        | Where the risk is exchanged for one of lesser classification   |
| <b>Isolation</b>           | Where the risk is contained (e.g. Enclosures, guards etc.)   |
| <b>Engineering</b>         | Where common systems are used to protect all exposed to risk (e.g. Fire alarms, ventilation systems etc.)  |
| <b>Personal Protection</b> | Whereby the above means, the risk cannot be reasonably be reduced further, but an unacceptable level of risk remains, the team members are individually protected from the risk.                             |
| <b>Procedure</b>           | Where procedural controls are used. This will include procedures such as Standard Operating Procedures and training and the provision of information may apply to any and all of the above control measures. |
