THE FUTURE IS THE PRESENT IS THE PAST

By **DUBLIN INSTITUTE OF
TECHNOLOGY**

Be enthralled as a city, society and spectacle emerge in front of you and wait and watch to see what the future holds.

The essential life element of an island nation is water. Watch as a river of blue flows through the streets of Dublin and marvel as fish jump from the water and become birds.

Magically, land rises from the water, birds will land and life will begin on the island. People will emerge and create their world around them.

Designed and performed by students at **DIT** the pageant celebrates the continuing creative cycle of life.

*Students from the Dublin School of Creative Arts in Grangegorman, The Conservatory of Music and Drama in Rathmines as well as their colleagues from throughout the **Dublin Institute of Technology** have been involved in the creation and performance of this pageant piece. The project is led by Barry Sheehan, Head of Design, Dublin School of Creative Arts, **DIT**.*
