Truck Work

Overhead Power Lines

Kings Inns Street

1. This shows the location of the overhead cables found on Kings Inns Street at 1st floor level.

Bolton Street/Dorset Street

Two large trees located on the footpath on the front elevation of the building.

1. Trees located outside the front elevation. These are set back from the building which will allow access.

Industrial Division Over View for Technicians

Car Park

The areas which will be reached from the car park area will be reached from locating the LMH on the access road. Traffic can be redirected.

Areas are reassessed. Where the LMH cannot reach other means will be used.

1. These areas will involve the LMH reaching in over the lower buildings to gain the windows.
